Kappa and Robe di Kappa exclusive
licensee and distributor for Canada

To whom it may concern:

In June of 2006, Kappa opened its first image retail store in North America. PCM Pyramid Construction was provided the contract to perform the construction work for this very important location.

PCM Pyramid was able to meet the overall objectives of this project, working closely with us and within budget. Not only did PCM Pyramid prepare the original budget, it also collaborated closely with the architect and designer to assist them during the initial design phase.

Our store was slated to open on a very tight schedule and we were pleased that PCM Pyramid maintained this schedule. We also feel that we were treated very fairly considering on site changes and last minute approvals without any major additional costs to the project.

For any future projects that we may have, PCM Pyramid Construction will be provided with an opportunity to quote and handle this work for our company.

It was a pleasure working with PCM Pyramid Construction, their staff and sub-trades and we have no hesitation in recommending them as a reputable and competent builder.

Sincerely,

Basilio (Basil) Farano
President
IBA Group of Brands
